Chapter 34
Heme

Heme synthesis -

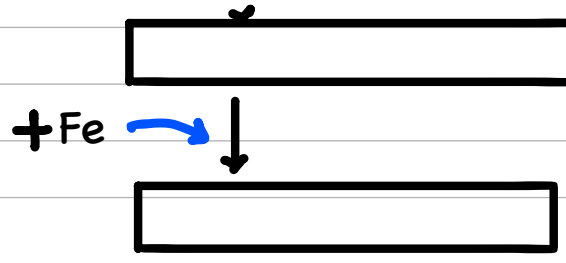

Place - partially ……+ partially ……

PBG-deaminase

HMB Or Uroporphyrinogen 1

Hydroxy -methyl -bilane

Dear dr. ……..

The future is full of unknowns and uncertainties, but I am confident that you are well-prepared to face whatever comes your way. You have learned valuable skills, gained knowledge, and developed the ability to think critically and creatively. These are all qualities that will serve you well in your future endeavors.

As you move forward, remember to stay true to yourself and your values. Pursue your passions and never give up on your dreams. Set goals for yourself and work hard to achieve them. Along the way, don't be afraid to take risks, make mistakes, and learn from them.

Remember that success is not always measured by financial or material wealth. It is also measured by the positive impact you make on the world and the people around you. Use your education and talents to make a difference in your community, and strive to leave the world a better place than you found it.

Finally, always remember that you are capable of achieving great things. Believe in yourself and your abilities, and never let anyone else tell you otherwise. You have the power to create your own future, so go out there and make it happen!

Best wishes

Dr. Priyansh Jain
